

CATEGORY: ANTI-VIBRATION PADS

DP SERIES

Domino pad

¾ in Thickness (19 mm)	15–45 psi Working range (103–310 kPa)	8 sizes Can be cut to size
----------------------------------	---	--------------------------------------

DESCRIPTION

- Domino design with built-in suction cups.
- Design allows for easy cutting.
- Simple field installation.
- Pattern: domino.
- Working range from 15 to 45 psi.

APPLICATION

- Where bolting is to be avoided.
- Minor, non-critical vibration conditions.
- Pumps, motors, air-conditioning units, generators, etc.
- Acoustic problem applications.

SELECTION TABLE

Size (in)	Load at 15 psi (lb)	Load at 45 psi (lb)	At 45 psi (kg)
2 x 2	60	180	82
2 x 4	120	360	163
2 x 6	180	540	245
4 x 4	240	720	327
4 x 6	360	1,080	490
6 x 6	540	1,620	735
10 x 18	2,700	8,100	3,674
18 x 18	4,860	14,580	6,613

Loads per pad, calculated from the 15–45 psi working range.

DP domino pad.
