

Seismic Spring Isolators

- VSR2

**ISOLATORS TO BE WELDED TO EQUIPMENT

DESCRIPTION

Body are fabricated using solid steel.
 Springs are made from spring steel, zinc electroplated/powder coated.
 Incorporated with leveling device.
 Load capacity ranging from 400 to 5600 lbs.
 Provided with anti-skid rubber pads.
 Color coded springs for easy and quick identification.
 Supplied with base plate for installation.
 2" Deflection.

APPLICATION

Used for wide range of equipments such as compressors, air handling units, fans, pumps and chillers, cooling towers etc.
